

Thank you for your interest in Essential Oils. I have been using my oils since March 2014 and discover something new nearly every day! Learn more here:

What are Essential Oils?

Essential oils were mankind's first medicine. From Egyptian hieroglyphics and Chinese manuscripts, we know that priests and physicians have used essential oils for thousands of years. Additionally, there are 188 references to essential oils in the Bible.

Essential oils can be used in a variety of ways including direct application on the skin, inhalation, in a relaxing bath, diffused into the air, for massage therapy, as perfume or cologne, in your favorite recipes and more.

Are these the same oils that I buy at my local pharmacy or health food store?

No. Young Living offers the purest therapeutic-grade essential oils by carefully controlling the entire *Seed to Seal*[®] process – from the time the seed is sourced until the oil is sealed in the bottle. Young Living's dedication to quality ensures that we provide pure, therapeutic-grade essential oils with the complete, optimal blend of plant chemicals to ensure maximum potency and results. Oils sold in retail locations often have a higher water content and are made with other synthetic fillers. Young Living oils are 100% pure oil.

I would like to know more about oils but am not sure where to start.

What should I do first?

The best thing to do is to experiment with the oils for yourself, your family, your pets and your home. There is SO much to learn! The best way to do begin is with hands-on experience. I've had my oils since March 2014 and discover new uses every day. If you are ready to make an investment, the Premium Starter Kit would be my recommendation. It is \$160 + shipping and if you purchase by December 31, 2018 **you will receive the Pocket Reference Guide free** (a \$25 value). I refer to the Pocket Reference Guide regularly and it often becomes my night time reading 😊. If you are not ready to make the investment, I can provide oil samples with information sheets and suggestions for usage. I also have some basic information on my website at <http://www.sarawolfson.com/bull-essential-oils-bull.html>.

There is so much to learn! How do I keep current with oils?

If you have a Pinterest account, check out my Essential Oils board and start your own board. There are endless posts for oil recipes, DIY projects, and more.

Once you purchase your kit, I will invite you to some private Facebook groups and can offer several recommended websites to visit. I can recommend my favorite Essential Oil Podcasts too!

I am ready to take the next step. Tell me about the Premium Starter Kit.

The best value for purchasing the oils is to order the Premium Starter Kit. When you order this kit, you become a distributor and enjoy wholesale pricing on future orders for yourself and your friends. There is no minimum monthly order. Only an annual purchase is required to keep your wholesale pricing. Here are the contents of the kit:
